

Dental Light Bulb Replacement Kit [002-1154-00]

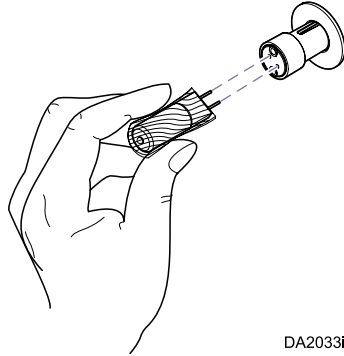

Caution

The bulb and surrounding components may be HOT! Allow the bulb to cool for at least five minutes before removing the light shield. Never operate the light with light shield removed.

To Install Replacement Bulb...

- A) Pull the old bulb straight out to remove.
- B) Align contact pins to socket holes and push in firmly to install new bulb.

DA2033i

Caution

Do not touch the replacement bulb with your fingers. Install the bulb with its protective plastic cover on. If bulb is accidentally touched, immediately clean off all finger prints with denatured alcohol.
